

# Go Ahead. Talk About Us.

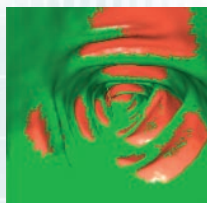

## Everyone else is.

If you haven't heard, let us fill you in: Viatronix V3D-Colon was the only 3D visualization system selected to complete a landmark clinical trial\* on virtual colonoscopy.

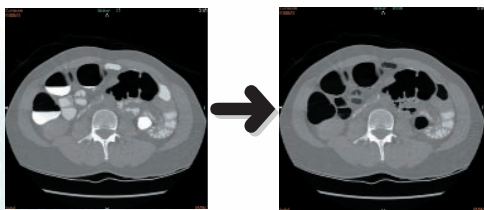

That's because only Viatronix V3D-Colon provided physicians with the features, tools and visualization capabilities they required to complete this comprehensive study.

Supine-prone registration exclusively with V3D-Colon
