

# We've seen your wish list.

That's why we developed V3D, an affordable, technologically superior 2-D and 3-D multi-modality visualization system.

### V3D-Explorer

is a robust 2-D and 3-D diagnostic workstation that processes large and small radiology studies with precision and ease.

### V3D-Colon

is an optimized solution that provides the highest quality 2-D and 3-D images. Using the most efficient toolset in the industry, V3D-Colon permits exam completion in less than 10 minutes while also providing the highest sensitivity possible.

### V3D-Calcium Scoring

is an optimized solution to calculate Agatston score and Volume with single-click 3-D selection and fully customized reporting.

The Viatronix V3D system is a powerful 2-D and 3-D imaging workstation that provides the highest quality in visualization, speed and user friendliness. Our sophisticated visualization products, V3D-Explorer, V3D-Colon and V3D-Calcium Scoring, are sure to be on your wish list.

### System Features

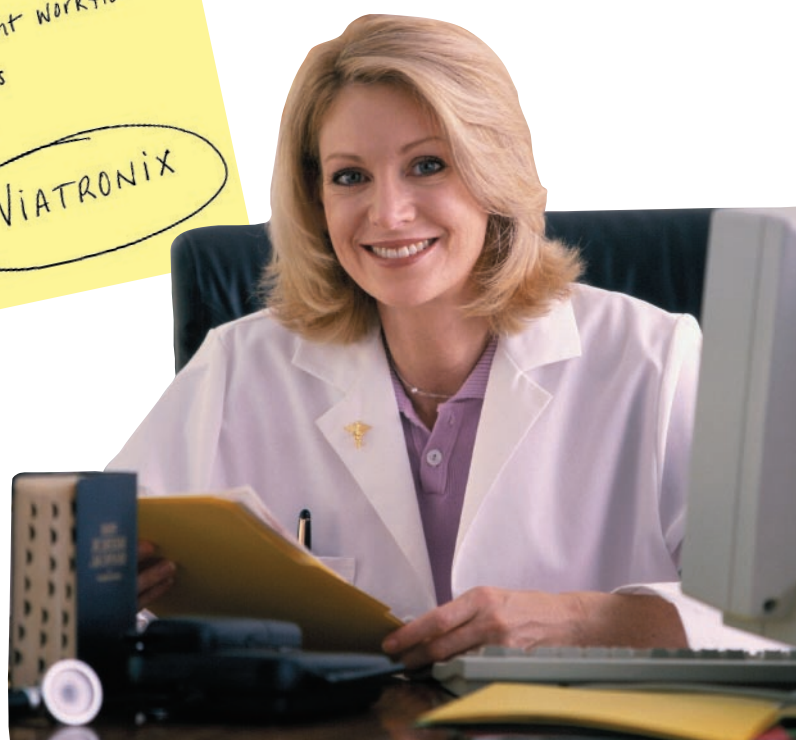

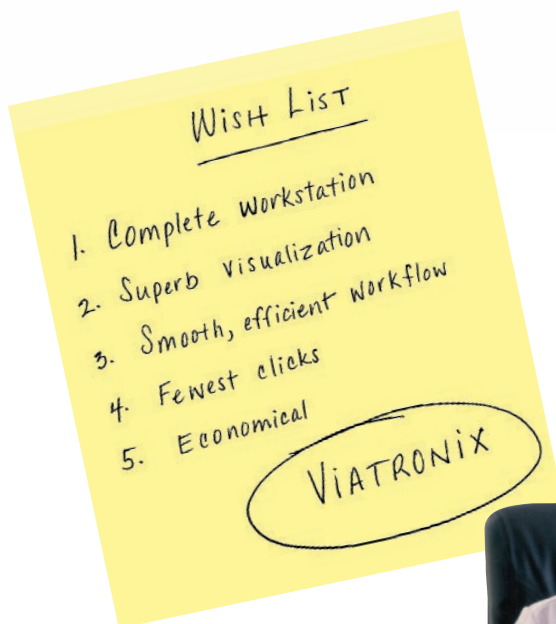

- Real time volume rendering
- Single-click intuitive segmentation
- Simple, accurate measurement tools

### Physician Benefits

- enhanced diagnostic capability
- increased productivity
- streamlined workflow
- improved profitability

### Patient Benefits

- faster diagnosis and treatment
- non-invasive procedures
- greater comfort
